Are 50 Cent and Ciara dating?

Ciara put rumors about her romance with 50 Cent to rest when the pair arrived and left together at the BET Awards in LA on June 26.

They've reportedly been dating quietly after meeting to work on her latest single, "Can't Leave 'Em Alone." He even brought Ciara back to his old neighborhood in Queens, N.Y., but the 21-year-old allegedly hid

out in the backseat of his SUV when she thought fans had spotted them. There have been various sightings of the couple sharing romantic dinners in NYC and LA.

The 32-year-old rapper was most recently linked to *The Young and the Restless* star Victoria Rowell. But he tells *In Touch*, "We never dated." Ciara and rapper Bow Wow split last year.

► It turns out there was real chemistry between 50 Cent and Ciara in the steamy video for "Can't Leave 'Em Alone."
